**There will be separate classes for beginning and experienced  
testers. Please bring your problem doe pages, needed  
corrections and questions**

The American Dairy Goat Association Annual Meeting was held this October in Santa Rosa, California, and included a full week of scientific and youth programming. A good portion of this programming was provided by UC Davis faculty, staff, students and alumni. In light of the fact that the annual meeting was held so recently, we decided that this year would be a good opportunity to expand our DHIA tester training program and to forgo the usual "goat day" programming.

Next year the full goat day agenda will resume  
Save the date ..... January 16, 2010.

If you plan to attend the CADHIA tester training this year, please send an e-mail to Jan Carlson (jcarlson@ucdavis.edu) or Scott Taylor (CADHIA@aol.com). This will allow us to plan for materials and refreshments.
