

Fall 2020 Sample Schedule Freshmen Animal Science Major

Plan A: This plan assumes that you have satisfied the Entry Level Writing Requirement and are ready to enroll directly into Chemistry 2A and Math 16A (Short Calculus).

Fall		
	ANS 1	4 units
	CHE 2A	5 units
	English/GE	4 units
	Total	13 units

Plan B: This plan assumes that you have not satisfied the Entry Level Writing Requirement, have not placed into Chemistry 2A and have not placed into Math 16A (Short Calculus). Your schedule could be a mix of the above schedule and below pending on what workload courses you must take. Please be aware that some workload courses are only offered in Fall (WLD 41C, WLD 55M).

Fall		
	GE AH or SS	4 units
	UWP 7	4 units
	WLD 41C	3 units
	WLD 55M	3 units
	Total	14 units

For ANS 1: We do not recommend students register for the course until they have placed into UWP 7 or higher. If you have placed in UWP 21 or 22, please take ANS 1 next year. You will not be behind.

Additional comments concerning your Fall schedule:

We strongly recommend that you keep to a **balanced** schedule, taking no more than 2 sciences/math courses this Fall. Please take **no more than 14 units (including workload units) and do not take courses numbered 100 or above**. We also do not recommend that you start an internship your Fall quarter. It is best to get use to the campus and life at UC Davis before starting any internships.

If any of the above courses are full, other appropriate courses are:

ANS 18 4 units MAT 16A* 3 units
 AVS 13 3 units

*If you are unable to register for CHE 2A, consider taking BIS 2B, MAT 12, or MAT 16A instead. You must have met the math placement requirements to enroll in MAT 12 or MAT 16A. You can then waitlist CHE 2A during Pass 2.

Elective Courses: These courses do not satisfy GE credit needed for the ANS major, but will count towards minimum progress and the 180 unit requirement for graduation.

ANS 49B-K** 2 units MANRRS 1 unit
 Aggie Ambassadors 1-2 units EDU 81 2 units
 Career Discovery Group 1 unit GEL 12 2 units
 First-Year Seminars*** 1-2 units PHE 1 0.5 units

**Watch for location – ANS 49s are located at the ANS Facility: <https://animalscience.ucdavis.edu/facilities>.

*** A list and description of all First-Year Seminars can be found online at <https://fys.ucdavis.edu/schedule>.
