U.S. AGENCY FOR INTERNATIONAL DEVELOPMENT

Position Title: **Data Science and Curation Intern**

Dept/Office: Bureau for Management, Office of the Chief Information Officer

Team: USAID Data Services Team (with multiple placement options)

Location: Interns will be physically located in USAID facilities in the downtown Washington, D.C. area and / or Arlington, VA

Duration: May 2018 - September 2018 (flexible / extendible)

Compensation: This is an unpaid internship. Interns will be responsible for covering housing and living expenses in the immediate Washington, D.C. area. Interns can expect to have access to multiple professional development and learning opportunities within USAID and in the D.C. area.

Background:

The United States Agency for International Development (USAID) is the world's premier international development agency and a catalytic actor driving development results. The Agency is committed to using data and evidence to accelerate innovative approaches in development and to transform development outcomes, and understands that opening data and sharing it widely can lead to new breakthroughs in support of the Agency's mission.

In October 2014, USAID announced the release of its first ever Development Data Policy (ADS Chapter 579). This policy established the Development Data Library (DDL) as the Agency's central digital repository for USAID-funded, machine readable data. It also directed Agency staff and implementing partners to register or submit USAID-funded data to the repository. The DDL serves as USAID's source for advancing the availability and access to rich, heterogenous microdata. Most importantly, it facilitates reuse of data for the next generation of development work.

In 2018, USAID plans to launch a new, improved DDL platform that will catalyze the availability, access, and use of USAID data. The new DDL will offer a redesigned data submission process with improved navigation, enhanced organization for data holdings, and expanded features to accelerate data use, such as in-platform visualizations.

Position Description:

USAID Data Science and Curation Interns will be a part of USAID's data community working to advance the availability, accessibility, and re-use of development data. Interns will provide support related to managing data at multiple points throughout the information lifecycle. This includes supporting business processes related to identifying, reformatting, redacting, submitting, tagging, approving, publishing, and archiving datasets generated with USAID funding. The intern will provide analytical products and services using foreign assistance data and information resources, which may require running queries on databases, enterprise systems, and other primary data sources.

Each intern will, at minimum, support the launch of USAID's new Development Data Library (DDL), to include:

a) Learning and apply best practices for preserving, manipulating, and transforming data to migrate complex datasets into the new DDL;
b) Enhancing dataset metadata and documentation to improve the usability of datasets through the DDL;
c) Learning and applying best practices for data publication and sharing to help advance the responsible release of datasets through the DDL;
d) Developing training materials for USAID staff, partners, and public users who are new to the platform.

In addition, the intern will provide ancillary support to other USAID operating units based on the unique needs of that unit. Placement opportunities are as follows (generally limited to one intern per unit):

● Bureau for Management, Office of the Chief Information Officer (M/CIO)
● Bureau for Global Health (GH)
● Bureau for Economic Growth, Education, and Environment (E3)
● Bureau for Food Security (BFS)
● Global Development Lab, Center for Development Research (LAB/CDR)

Placement: Office of the Chief Information Officer (M/CIO)

- As part of the core team leading the launch of USAID's new Development Data Library (DDL), assist with all aspects of the DDL launch, to include data migration, feature testing, socialization, training / orientation, and communications.
- Support Agency-wide efforts to develop a data literacy training curriculum
- Contribute to strategic planning sessions focused on modernizing a multitude of USAID data-related websites
- Identify and perform analyses and visualizations using public datasets that demonstrate the benefits of data sharing and publication to USAID staff and partners;
- Assist with drafting official USAID guidance related to data standardization; creation of data management plans; obtaining informed consent during data collection; and protocols for conducting risk analysis;
- Support the launch and implementation of USAID's new Analytics, Data, Visualization, and Information Services (ADVISE) contract.

Placement: Bureau for Global Health (GH)

- Assist with the further development of open data training modules, for our bureau, field offices, and implementing partners.
- Assist with providing Bureau wide AOR/COR open data training as well as informational presentations.
- Assisting with converting training materials into online content
- Work with individual offices to develop internal guidance on the clearance of data packages
- Work directly with offices to assist with the preparation of data packages, for DDL submission
- Work with our various offices, and their Data Stewards, to develop project plans for improved data release.
- Work with implementing partners, through our various offices, and their Data Stewards, as well as relevant AOR/CORs, to develop Data Management Plans.

Placement: Bureau for Economic Growth, Education, and Environment (E3)

- Coordinate across E3/ED technical teams to review and prepare the 2018 Education Activity roster
- Support preparation for the 2018 Annual Data Call, including updating guidance and preparing data capture sheets as necessary
- Work with E3/ED and OUs to assist with the preparation of data packages for DDL submission
- Support communication with OUs to obtain clearance and prepare data packages for DDL submission

Placement: Bureau for Food Security (BFS)

- Assist AOR/CORs and partners with data quality review of Feed the Future datasets submitted to the Agency.
- Review Data Management Plan (DMP) inventory status and assist BFS Offices and partners with creating new and updating existing DMPs.
- Identify incomplete data package submittals and work with AOR/CORs and partners to update.
- Assist with refining training materials for partners, Washington bureau, and FTF missions and identify best practices for data curation and management.
- Assist with bureau-wide Open Data training to ensure compliance with policy.
- Assist with identifying and/or building data use cases to support USAID Open Data initiatives as they relate to, or support achieving Global Food Security Strategy goals and objectives. Provide support for a datathon or other events to raise awareness of and demonstrate the value of open development data.
- Identify existing food security data, and/or make recommendations for the curation of new data that could be used to support the development of a strategy to integrate machine learning tools into the Monitoring, Evaluation, and Learning (MEL) processes.

Placement: Global Development Lab, Center for Development Research

- Stocktaking of public access/ open data trainings currently existing across USAID and compiling relevant materials and content
- Create a list of suggested best practices from these materials for the whole agency to consider/adopt
- Create an SOP for rolling out public access/open data for PEER, HESN, and new mechanisms

Education:

- It is generally preferred that candidates be in the process of completing a graduate degree in economics, various sciences (including computer or data science), mathematics, or relevant quantitative subject area that requires an understanding of technical methods in data management to solve complex problems.

Skills:

- Experience working with development data or related disciplinary data (such as global/public health data, agriculture and food security data, social/behavioral or political science data, education data, environmental data, geospatial data)

- Ability to work with different types of data from various sources such as static (snapshots of a project at a single point in time) and dynamic (ever-changing data generated continuously)
- Ability to understand and work closely with data repository workflows and business processes
- Ability to work with minimal supervision; entrepreneurial and self-motivated
- Ability to work collaboratively with a variety of individuals at different levels within the Agency and outside the Agency on complex or politically sensitive issues

Citizenship / Clearance: Interns must be U.S. Citizens and will be required to pass a background check and interim clearance process to obtain facility and network access.

To Apply:
Please contact your *first choice* placement Point of Contact (POC) by emailing one of the addresses below. Your first choice placement should most match your skills and expectations for the internship. **Applications received prior to May 11** will receive priority consideration. When doing so, please also include:

- A copy of your resume
- A brief statement on why you are pursuing the internship
- A ranking of your 2nd, 3rd, 4th, and 5th placement preferences

Placement POCs:
- Bureau for Management, Office of the Chief Information Officer (M/CIO)
  - Scott Thompson <dataservices@usaid.gov>

- Bureau for Global Health (GH)
  - Jason Wucinski <jwucinski@usaid.gov>

US SWEET POTATO COUNCIL
2018 LOGO DESIGN COLLEGE SCHOLARSHIP

Scholarship
One $2,000.00 scholarship will be offered to a student selected from applicants from Auburn University, Louisiana State University, Mississippi State University, North Carolina State University, and University of California, Davis.

If the scholarship committee feels no student fulfills the requirements, scholarship may not be given.

Awards
The US SWEET POTATO COUNCIL Scholarship will be paid to the university's Financial Aid Office of the recipient's university. Upon receiving the payment, we will ask the Financial Aid Officer to verify registration of the Scholarship awardee.

Scholarship Program Objectives
The purpose of the program is to develop and design the logo and associated style guide for the US SWEET POTATO COUNCIL.

The US SWEET POTATO COUNCIL is an advocate for the economic well-being of the US Sweet Potato producer. The sweet potato producers and the entire US sweet potato industry benefit directly and indirectly from the activities of the Council that supports them in implementing reasonably priced promotion activities, monitoring federal issue affecting the growers' ability to produce efficiently, advocating key congressional representatives and staff on federal issues important to growers, and providing a forum for bringing together, on a national level, growers and issues of diverse regions.

1. The Council seeks to have a unique logo, unlike any of the state associations, commissions or councils.
2. Designs should be presented in single color, two-color and full color versions with the palettes and typography identified accordingly.
3. The design needs to be applicable across various applications – print, electronic, merchandise, etc.
4. Selected design becomes the property of the US Sweet Potato Council however, may be used in student/professional portfolio. A letter of support and authorization will be provided by the Council.

Eligibility Requirements
Age, gender, race, religion, national origin or financial needs are not conditions of eligibility for the award.

Application procedures for students
1. All applications require design submission as noted above.
2. Write a Style Guide for logo use – 1-color, 2-color and full color use of the logo in various applications.
3. Write a statement of your design rationale.
4. Provide a letter of recommendation from the department head and/or a faculty member.
5. The US SWEET POTATO COUNCIL office must receive all applications by **July 13, 2018.**

Special Notes

1. If an awardee withdraws from school, the unused balance of the award must be returned to the US SWEET POTATO COUNCIL.
2. Scholarship recipient is asked, if possible, to attend the US SWEET POTATO COUNCIL Convention.

Selection Process

1. A US SWEET POTATO COUNCIL scholarship will be awarded to a student attending one of the listed universities – Auburn University, Louisiana State University, Mississippi State University, North Carolina State University and University of California.

2. The award of these Scholarships will be based on the following:
   a) Design
   b) Style Guide
   c) Statement – your rationale for the design submitted.
   d) Financial needs will not be a consideration for this award.

3. The Scholarship Committee will select the recipient(s).
   Selection Submissions:
   a) Design 60%
   b) Clarity of expression, spelling and grammar 20%
   c) Persuasiveness 10%
   d) Originality of thought 10%

   The evaluation will be according to the personal opinion of the council's panel of judges.

Notification

The awarded applicant and the University will be notified of the recipient.
A written acceptance from the successful recipient must be sent to the US SWEET POTATO COUNCIL office before the scholarship funds will be released for use by the recipient.

QUESTIONS RELATED TO THE APPLICATION PROCESS SHOULD BE DIRECTED TO:

MS. KAY RENTZEL, US SWEET POTATO COUNCIL EXECUTIVE DIRECTOR
Phone: (717) 329-8421 or e-mail to ksrentzel@aol.com

The 39ᵗʰ Year of the NPFDA Scholarship

The National Poultry and Food Distributors Association Scholarship Foundation has given almost $240,000.00 to rising leaders in the 39 years it has been operating. Every year since 1979, NPFDA has awarded a select group of deserving students with a scholarship to help them complete their poultry or agriculture related degrees.

In the Past:
The NPFDA scholarship began when its leadership saw the need for outstanding "People Resources" in the agricultural industry. In 1986, the William Manson Family Memorial Scholarship and the Alfred Schwartz Memorial Scholarship Awards were established. In 1997, NPFDA named a third scholarship award the Albin S. Johnson Memorial Scholarship Award.

The yearly award has increased to $4000 per student and the number of students to be awarded has increased to 5 ($20,000 total in awards). The NPFDA scholarship committee chooses five exceptional students each year. Two students will be chosen from NPFDA Member Companies (employees or children of employees

The funds for the 2018-2019 scholarships come from private cash donations and donations to NPFDA's annual silent auction. The silent auction is held each January during the Annual Convention in Atlanta at the Awards reception.

Information for Current Students:
Each applicant must:
- Be a college junior or senior during the upcoming school year
- Be enrolled as a full-time student
- Be pursuing a poultry or related agricultural degree, i.e. Agricultural Business, Poultry Science, Food Science, Animal Science, Food Marketing, Ag. Econ, and other related business and agricultural degrees.
- Provide his or her sealed official transcript. Must be the official Transcript and stamped for authentication.
- Provide a letter of recommendation from his or her Dean, Department Head, and/or advisor.
- Complete the application
- Provide a one-page letter describing his or her goals and aspirations

All applications and documents are due by 5/31/18. Only official transcripts will be considered after 5/31/18 due to the short timeframe between the end of the semester and the deadline.

In late spring, the scholarship committee will review all applicants. The scholarship winners are chosen based on their aspirations, extra-curricular activities, as well as their academic progress. Winners will be contacted via phone call in July. Everyone else will receive an email.

Interested Students may Apply Here. You can open your account and return to it anytime. You may upload supporting documents and fill out the application and essay on line.
