

## Fall 2020 Sample Schedule

### Transfer Animal Science and Management Major – General Inorganic Chemistry Not Completed

**In your Aggie Advising Appointment, a staff advisor will discuss how to adjust the below schedule, taking into consideration your transfer coursework. Please be sure to have a copy of your unofficial transcript(s) available for review during your appointment.**

**Plan A:** This plan assumes that you have not completed the equivalent of CHE 2A and 2B (General Chemistry), have not completed ECN 1A and 1B (Economics), and have not completed MAT 16A, 16B, and 16C (Short Calculus) at another college. This plan also assumes that you have taken the Chemistry and Math Placement Exams and have placed into CHE 2A and MAT 16A.

Fall		
	CHE 2A	5 units
	MAT 16A	3 units
	ECN 1A or 1B	4 units
	Total	13 units

**Plan B:** This plan assumes that you have not completed the equivalent of CHE 2B (General Chemistry), have not completed the equivalent of BIS 2A, 2B, and 2C (Introductory Biology), have not complete the equivalent of MGT 11A and 11B (Accounting), but have completed the equivalent of ECN 1A and 1B (Economics) and MAT 16A, 16B, and 16C (Short Calculus) at another college. You do not need to take the Chemistry Placement Exam if you have completed CHE 2A at another college.

Fall		
	BIS 2B*	5 units
	MGT 11A	4 units
	PLS 120 OR STA 100**	4 units
	Total	13 units

\*We do not recommend that students start with BIS 2A until AFTER they have completed CHE 2A, 2B.

\*\*Courses equivalent to STA 13 will NOT satisfy the statistics requirement for the major. Students must take either PLS 120 (Applied Statistics in Agricultural Sciences) or STA 100 (Applied Statistics for Biology Sciences) or STA 103 (Applied Statistics for Business & Economics). If you have taken the equivalent of STA 13 at another college, you will only receive 2 units of credit towards the 180 unit graduation requirement if you take STA 100. PLS 120 and STA 103 do not have this restriction.

**For CHE 2B:** CHE 2B is only offered in Winter, Spring, and Summer Session II. It is not offered in Fall.

**For ANS 1:** This course is waived for all transfer students. ANS 2 (offered in Spring) is required for all students unless you have taken an equivalent course at another college.

#### **Additional comments concerning your Fall schedule:**

We strongly recommend that you keep to a **balanced** schedule, taking no more than 2 sciences/math courses this Fall. Please take **no more than 14 units (including workload units)**.

We also do not recommend that you start an internship your Fall quarter. It is best to get use to the campus and life at UC Davis before starting any internships.

**Placement Exam Information:**

**Chemistry Placement:** <https://chemistry.ucdavis.edu/undergraduate/general-chemistry-series/chemistry-placement-requirements/fall-2019>

**Math Placement:** [https://www.math.ucdavis.edu/undergrad/math\\_placement/](https://www.math.ucdavis.edu/undergrad/math_placement/)

**Elective Courses:** These courses do not satisfy GE credit needed for the ANM major, but will count towards minimum progress and the 180 unit requirement for graduation. ANS 18, 41, 41L, AVS 13 may be used towards specific specializations, please see ANM Major Checklist.

ANS 18	4 units	EDU 81	2 units
ANS 41	2 units	First-Year Seminars**	1-2 units
ANS 41L	2 units	GEL 12	2 units
AVS 13	3 units	MANRRS	1 unit
Aggie Ambassadors	1-2 units	NUT 11	2 units
AMS 95	2 units	PHE 1	0.5 units
Career Discovery Group	1 unit	PHE 44	2 units

\*\* A list and description of all First-Year Seminars can be found online at <https://fys.ucdavis.edu/schedule>.
