

Fall 2020 Sample Schedule

Transfer Animal Science Major – Organic Chemistry Needed and Organic Chemistry Completed

In your Aggie Advising Appointment, a staff advisor will discuss how to adjust the below schedule, taking into consideration your transfer coursework. Please be sure to have a copy of your unofficial transcript(s) available for review during your appointment.

Plan A: This plan assumes that you have not completed the equivalent of CHE 8A and 8B (Organic Chemistry: Brief) OR CHE 118A and 118B (Organic Chemistry) and have not completed the equivalent of PLS 120 or STA 100, but have completed all other lower division preparatory subject matter at another college. (Please see ANS Major Checklist for specific courses)

Fall		
	CHE 8A or 118A	2 or 4 units
	Specialization	3-4 units
	PLS 120 OR STA 100*	4 units
	English/GE or Elective – may not need pending on other courses	3 units
	Total	12-14 units

Plan B: This plan assumes that you have completed all lower division preparatory subject matter courses except for PLS 120 or STA 100. (Please see ANS Major Checklist for specific courses)

Fall		
	ABI 102	5 units
	PLS 120 OR STA 100*	4 units
	English/GE or Elective	3 units
	Total	12 units

*Courses equivalent to STA 13 will NOT satisfy the statistics requirement for the major. Students must take either PLS 120 (Applied Statistics in Agricultural Sciences) or STA 100 (Applied Statistics for Biology Sciences). If you have taken the equivalent of STA 13 at another college, you will only receive 2 units of credit towards the 180 unit graduation requirement if you take STA 100. PLS 120 does not have this restriction.

For ANS 1, 41, and 41L: These courses are waived for all transfer students. ANS 2 (offered in Spring) is required for all students unless you have taken an equivalent course at another college.

Additional comments concerning your Fall schedule:

We strongly recommend that you keep to a **balanced** schedule, taking no more than 2 sciences/math courses this Fall. Please take **no more than 14 units (including workload units)**.

We also do not recommend that you start an internship your Fall quarter. It is best to get use to the campus and life at UC Davis before starting any internships.

Specialization Courses: The courses below can be used towards your specialization requirement pending approval from your Faculty Advisor. Faculty Advisors will not be assigned until after Fall quarter has started. You will receive a notification from our office once they have been assigned. If a course is full, we recommend registering for another course during Pass 1 that you would be willing to take. Then you may waitlist during Pass 2 but keep in mind that these courses may not accept students from the waitlist. Additionally, double check to ensure that you meet the prerequisite requirements.

6/1/2020

ANS 104	4 units	VMB 101V	3 units
ANS 170	4 units	WFC 151	4 units
NPB 102	3 units		

Elective Courses: These courses do not satisfy GE credit needed for the ANS major, but will count towards minimum progress and the 180 unit requirement for graduation. ANS 18 and AVS 13 may be used towards specific specializations, please see ANS Major Checklist.

ANS 18	4 units	First-Year Seminars**	1-2 units
AVS 13	3 units	GEL 12	2 units
Aggie Ambassadors	1-2 units	MANRRS	1 unit
AMS 95	2 units	NUT 11	2 units
Career Discovery Group	1 unit	PHE 1	0.5 units
EDU 81	2 units	PHE 44	2 units

** A list and description of all First-Year Seminars can be found online at <https://fys.ucdavis.edu/schedule>.
