

Fall 2021 Sample Schedule

Transfer Animal Science Major – General Inorganic Chemistry Not Completed

In your Aggie Advising Appointment, a Staff Advisor will discuss how to adjust the below schedule, taking into consideration your transfer coursework. Please be sure to have a copy of your unofficial transcript(s) available for review during your appointment.

Plan A: This plan assumes that you have not completed the equivalent of CHE 2A and 2B (General Chemistry) nor have you completed the equivalent of MAT 16A and 16B (Short Calculus) at another college. This plan also assumes that you have taken the Chemistry and Math Placement Exams and have placed into CHE 2A and MAT 16A.

Fall		
	CHE 2A	5 units
	English or GE or Elective	4 units
	MAT 16A	3 units
	SAS 106 (Career Discovery Group)	1 unit
	Total	14 units

Plan B: This plan assumes that you have not completed the equivalent of CHE 2B (General Chemistry), have not completed the equivalent of BIS 2A, 2B, and 2C (Introductory Biology), but have completed the equivalent of MAT 16A and 16B (Short Calculus) at another college. You do not need to take the Chemistry and Math Placement Exams if you have completed CHE 2A and MAT 16A at another college.

Fall		
	BIS 2B*	5 units
	English or GE or Elective	4 units
	PLS 120 OR STA 100**	4 units
	SAS 106 (Career Discovery Group)	1 unit
	Total	14 units

*We do not recommend that students start with BIS 2A until AFTER they have completed CHE 2A, 2B. If BIS 2B is full, please register for another appropriate course and waitlist during Pass 2.

**Courses equivalent to STA 13 will NOT satisfy the statistics requirement for the major. Students must take either PLS 120 (Applied Statistics in Agricultural Sciences) or STA 100 (Applied Statistics for Biology Sciences). If you have taken the equivalent of STA 13 at another college, you will only receive 2 units of credit towards the 180 unit graduation requirement if you take STA 100. PLS 120 does not have this restriction.

For CHE 2B: CHE 2B is only offered in Winter, Spring, and Summer Session II. It is not offered in Fall.

For ANS 1, 41, and 41L: These courses are waived for all transfer students. ANS 2 (offered in Spring) is required for all students unless you have taken an equivalent course at another college.

Concerning General Education and College English requirement: The CAES Dean's Office will be evaluating your coursework during Fall quarter and will notify you about your GE/College English progress then.

Additional comments concerning your Fall schedule:

We strongly recommend that you keep to a **balanced** schedule, taking no more than 2 sciences/math courses this Fall. Please take a **minimum of 12 units (full time standing) and no more than 15 units (including workload units) and do not take courses numbered 200 or above.**

If you choose to waitlist for a course, please be sure to be fully registered in 12 units (not including waitlisted). There is no guarantee that you will be admitted into a waitlisted course. It is advised that you create a schedule that you would be happy to take if you are not able to get into the waitlisted course.

We also do not recommend that you start an internship your Fall quarter. It is best to get use to the campus and life at UC Davis before starting any internships.

Placement Exam Information:

Chemistry Placement: <https://chemistry.ucdavis.edu/undergraduate/general-chemistry-series/chemistry-placement-requirements/fall-2019>

Math Placement: https://www.math.ucdavis.edu/undergrad/math_placement/

Elective Courses: These courses do not satisfy GE credit needed for the ANS major, but will count towards minimum progress and the 180 unit requirement for graduation. ANS 18 and AVS 13 may be used towards specific specializations, please see ANS Species Specialization handout.

Aggie Ambassadors	1-2 units	EDU 81	2 units
AMS 95	2 units	ECH 1 or 1Y	3 units
ANS 18	4 units	First-Year Seminars ^{▲▲}	1-2 units
ANS 49B-K [▲]	2 units	GEL 12	2 units
AVS 13	3 units	HUM 1	2 units
Career Discovery Group	1 unit	MANRRS	1 unit
DRA 40A	2 units	NUT 10	3 units
DRA 42A	2 units	NUT 11	2 units

[▲] Before registering for an ANS 49, check the facility location here: <https://animalscience.ucdavis.edu/facilities>. Some facilities are several miles off-campus.

^{▲▲} A list and description of all First-Year Seminars can be found online at <https://fys.ucdavis.edu/schedule>.
